

BIOTREAT L

Product Code : Q00039
Product Group: SANITATION PRODUCTS
Packaging: 1L or 2L case

PRODUCT DESCRIPTION

BIOTREAT L is a unique blend of superior surfactants and specially selected bacteria designed to clean the toilet bowl and help prevent the formation of organic pipe blockages in waste systems. BIOTREAT L degrades biological waste that enter such systems. It contains biodegradable surfactants and other components that have a minimal impact on the crew and the environment.

When used regularly, BIOTREAT L will dissolve and reduce the typical biological build-up in waste systems. Regular use will prevent the biological build-up from re-depositing on distribution piping, thereby increasing the overall efficacy of such systems.

APPLICATION & DOSAGE

Toilet bowl cleaning

Liberally squirt BIOTREAT L around rim in the toilet bowl and agitate with a hand brush for optimum cleaning results. Flush the toilet bowl when done. The beneficial bacteria in BIOTREAT L will activate in the drain pipes to clean and support the degradation of the waste.

Holding tank

BIOTREAT L vacuum toilet care can be used for treatment of holding tanks in the ratio of 1-2 liters per 4000 liters of system water. However, it is recommended to use BIOTREAT P for start-up, reactivation and maintenance treatment of sewage tanks.

Precaution

Use of harsh chemicals, such as acids, caustics and bleaches, is not recommended while using BIOTREAT L. These chemicals will temporarily deactivate the bacteria, thereby, reducing or eliminating their functionality. When harsh chemicals have been used, increase the initial dosage(s) of BIOTREAT L vacuum toilet care to support proper functioning of the waste systems.

BENEFITS

- Increases waste stream efficiency and reduces down time
- Keeps odors away, cleans and assists in prevention of waste build-up
- Increases customer satisfaction
- Compatible with all common materials such as, but not limited to, stainless steel, mild steel, copper, PVC, PE and PP
- Minimal impact on crew
- Minimizes handling
- Easy to apply

HEALTH SAFETY

Please refer to the Material Safety Data Sheet and Product Label for specific information.
