

P.L.H.B.

(Pre Load Hold Barrier)

Product Code : Q00047

Product Group: SOLVENT BASED DEGREASERS & TANK CLEANERS

Packaging: 25L

PRODUCT DESCRIPTION

P.L.H.B. is an exceptionally effective liquid product designed to leave a thin temporary film on cargo hold surfaces.

When P.L.H.B. is applied on the cargo hold surface it creates a barrier between the cargo and the cargo hold surface, therefore the cleaning procedure afterwards is faster and easier.

APPLICATION

Before applying P.L.H.B., the surface must be clean from any residues from previous cargo.

P.L.H.B. is used neat and can be applied with low pressure spraying equipment. One (1) liter of P.L.H.B. will cover about 15-20 m².

Allow the product to dry before loading cargo.

Drying time: 1 – 3 hours depending on the air temperature and humidity.

A thin temporary film is created on the surface. The film is water soluble and is easy to remove with sea water after unloading the cargo.

BENEFITS

- **Creates a thin temporary film.**
- **Protects all cargo hold surfaces from different types of cargo loads.**
- **Safe on all coatings.**
- **Solvent free, water based product.**
- **Easily removable with water.**
- **Temporarily protects against corrosion.**
- **Non-harmful to the environment.**

HEALTH SAFETY
