

SEPARATOR CLEANER

Product Code : Q00024

Product Group: SOLVENT BASED DEGREASERS & TANK CLEANERS

Packaging: 25L

PRODUCT DESCRIPTION

SEPARATOR CLEANER is an acidic liquid product containing surfactants, emulsifying agents, inhibitors and solvents.

PRODUCT USES

SEPARATOR CLEANER is suitable for removing all heavy tenacious deposits which collect in fuel and lube oil centrifugal stainless steel separators (DE LAVAL) and filters.

APPLICATION & DOSAGE

SEPARATOR CLEANER can be used by recirculation when the cleaning of separators discs or filters is done in - situ and by immersion or spray when the cleaning is done on individual discs or filters.

SEPARATOR CLEANER may be used neat or diluted down to 20% by volume with fresh water. Depending on the amount of contamination the cleaning operation will vary from 30 minutes to 2 hours.

After cleaning rinse thoroughly with fresh water.

Faster and better cleaning is obtained by heating to a maximum temperature of 60 °C.

Do not use on zinc, tin, galvanized surfaces or anodised aluminum.

BENEFITS

- Permits in situ-cleaning avoiding dismantling of unit.
- Leaves no film or residue.
- Cleans down to metal surfaces.
- Improves efficiency of centrifuge installation.
- Non flammable
- Compatible with stainless steel.
- Effective in removing carbonaceous and varnish deposits from separator discs.
- Easy to use.
- Dislodged deposits do not redeposit.

HEALTH SAFETY

Please refer to the Material Safety Data Sheet and Product Label for specific information.
